When is
it now?

The injured person do not act rashly.

I am injured seriously.

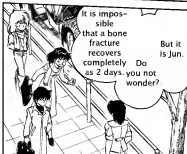

I will not
have any
problem.
Because
the injury
was cured.

It is impos-
sible
that a bone
fracture
recovers
completely
as 2 days. you not
wonder?

But it
is Jun.

Lack of
delicacy
such as
the steel.

BLUM
BLUM

I believe
reality not
possibility.

Ah, The
guy who is
thought-
lessness.

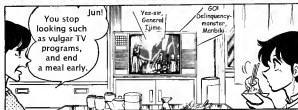

I'm a Space-Detective of youth division.

—Hodouin!!

You stop looking such as vulgar TV programs, and end a meal early.

Jun!

Yes-sir, General Ijime.

GO! Delinquency-monster, Maroto!

Fortunately, you are safe ...

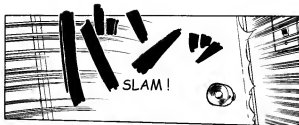

No!

Though you caused a casualty, have you not yet learned lesson?

In fact ... I have to talk regarding a motor-cycle...

You had
slightly
proper
reason.

Hmm
...

I
under-
stood
it.

What
are you?

You
coward,
take
shape
now!

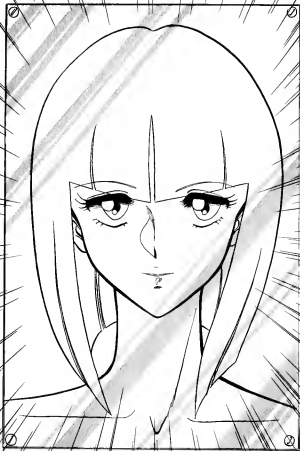

!?

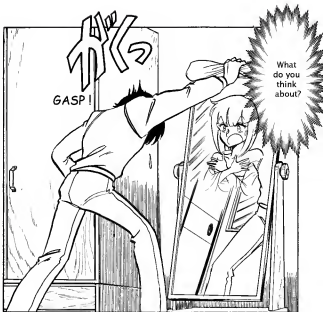

Watch
the mirror.

Is it the
mir-
ror?

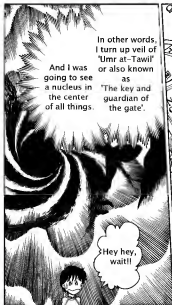

My name
is
Lamia.

Lamia
of Miraab.

I was
a famous
sorcerer
in the land
of Zothique.

And I was going to see a nucleus in the center of all things.

In other words, I turn up veil of 'Umr at-Tawil' or also known as 'The key and guardian of the gate'.

Hey hey, wait!!

Have a headache

Please explain it so that...
...it is understood to a common college student

I was 352 years old, and I learned all magical powers of this world.

However, the intellectual desire was left.

Finally I expected the truth that I could not understand from a human being, and went to the trip of the research to the Eons.

But...!!

Of course by
a human body
on such
a severe trip
I can't stand.

I left
the body
on the
earth...

...became
the pure
mind body
and went
to the
hyper
dimension.

In other words I went
through the crack
of the time and space.
And I went to the center
of the hyperspace
which led to
all time and space
and dimensions.

Long
Phra-
ses...

The world
was terrible
space
more than my
imagination.

By the
way

I finished the trip
of the search.
And I was going
to return to the
new body
of future business
prepared for.

I should have been
able to prepare
for my perfect
body including
the soul beyond
the level of DNA
there.

I fell
into insanity
of the length
of hundreds
of millions
of years when
I calculated
in relative
time.

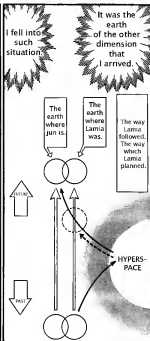

The one
that said

...that it went
flat because
of the information
more than the
processing capacity
may be right if
I use the expres-
sion of this
world.

I was coerced by
the existence
that was much
grander than
gods.

But my soul
barely did not
completely
fade away.

Is there not
the wish?

I will use your
body as
a temporary
inn until I find
an original
objective
dimension.

I will help you
at the same
time.

but can use
the super-
natural power
if your hope
goes
along with
my will.

Because
you are
a temporary
inn I cannot
say almighty.

Did you
forget a
daytime
event?

Do you have
super-natural
power?

If you are
not a ghost,
the occult ability
cannot be
usable.

But you
concentrate
conscious-
ness...

You were able
to use only the ability
of that scale so far
because you
were not conscious.

Then
I will
try
it...

It is
a great
exaggera-
tion.

We
make King
of this
world.

Then using
my magical power,
we become
almighty
in the world.

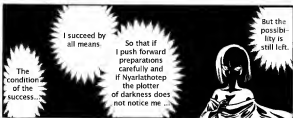

You get every
special ability
that

You
become
a super-
man.

an earthian
calls super-
natural
power at
a few level
so far.

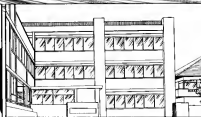

I take
the world

In first

BAM

Then
I use
the
power!

I'm
not merely
deceived by
a lucky story
this time.

Jun.

OK.

I do not
like it.

I cannot stand
that Jun and
a woman unify
why that I do
not permit it.

You become
the astral
body now.

Where
is it
here?

You do
not need
to worry.
It is a
path...
a dimen-
sional
interval.

Weird.

Yog-
Sothoth

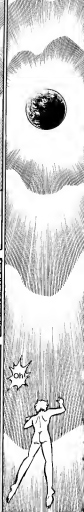

I cannot understand this but did I not transform myself into a superman?

Besides, it is...

Don't be silly.

Only power through this space has you.

Can even a superman not defeat that monster?

All living entities
of this space are
exterminated,
and the soul
becomes extinct,
and only infinite
chaos will be left.

The
passage
to this
dimension
has gone.
That
chases
us by all
means.

You
checked
what
so far?

But you
don't
under-
stand
this
world.

What?

Can you not
understand
the present
conditions?

It becomes
the showy
attraction.

SCRATCH
SCRATCH

The world
casus
belli is how
much.

The human
didn't feel
a sense of
impending
crisis much
in older
days.

Even if the human
dies by a nuclear war
and pollution when
on the earth, the state
that is not mysterious
continues.

Accidents
are
frequent
at the
nuclear
power
plant.

If One of the
nuke puke
processing
ground causes
an accident,
the whole earth
is given
radioactive
material more
than the fatal
dose.

Are there
more
terrible
things?

You say an insolent
It is you thing,
to have called in
monsters here.

Yes, yes.

You
are the
lowest
existence

The
human
who lives
in the
earth.

When
something
is taking
place and
dies, it is
extermini-
nated.

What
there is
no help
for it is
not trou-
bled even if
troubled.

What
will be,
will be.

I am more
anxious
about my
imminent
problem
than it.

...The
above is
common
sense
of
this
world.

BOOM

Oh!

ROAR

Earth-
quake!

Mount Fuji
which was a
dormant
volcano
erupted.

It is
a great
disaster!

Mount Fuji
has begun
to be active
suddenly!!

Do you not
mind even if
witnessed
being the
same as
Jun in
such a Time?

Let a daddy
and a mom
wake.

It will be
decided
on danger.

Is it
dangerous
here?

I'm in
a serious
situation!

Because
a panic
happens
Jun early in
immedi-
ately.

Come back
through
a house.

A particu-
larly
big volcanic
bomb flies
towards
Fuji-City.

Oh!!
that is

And what is the real nature of the monster of the flame which appeared?

Mount Fuji erupted suddenly.

A helicopter was destroyed.

Probably

...such situation

...before I die...

In such situation, I can't escape, too.

Mom wakes up

Then ...

May the problem be settled if you falls?

When a limb was bitten by an ant, are you going to murder it only looking for the ant which bit lying hidden in a den?

Annoying!

Wait a minute, Jun!?

No wonder. Does the human finally realize danger when exposed to the serious situation to here?

Noo-ooo ...

My house!

Saki!

My mom, my daddy!

Even you were upset until a while ago ..

It is awfully calm way of speaking.

Wait, any measures left?

Stop giving an explanation hard to please.

Anyway, hit the possible measures.

If Nyarlathotep does not appear afterward, it is convenient for us.

Therefore Yog-Sothoth sent Cthugha as a substitute for in that I was not able to come for this dimension.

There is some possibility of doing. The stars have come right now.

the main
body of
Cthugha
controlling
a spirit
of the flame
is there.

This is
because

Where
do you
go to?

I go
out.

Mount
Fuji.

You have various ability, but where do you get necessary energy from?

By the way, Lamia.

I arrived.

Do not think about a useless thing.

It is
Cthugha.

That is
devil
heat rays.
If devil heat
rays hit it, our
barrier is
easily
blown off.

The city that
they should
follow has
been
destroyed by
a monster.

Why
would
they
come
here
at this
time?

Stu-
pid.

Terrible.
By the present
attack, Tokyo
collapsed.

Prevent
that monster
from aiming
at my town.

Make it
snappy.

The
spirits
of flame
gathers.

Aah!
That

It is an
unrea-
sonable

Then
what
should
we do?

Only
one
means.

I call An
evil deity
becoming
that and
the anta-
gonism
together.

Oh!
'Fight one
evil with

that dwelleth
in the darkness
of the Outer Void,
come forth unto
the Earth once
more I entreat
thee.

You let
fight each
other.

But the
one that
survived?

You
disappear
to the
distance
right now.

The gate
of the
time and
space was
open.

The danger
Yog-Sothoth
cannot come
already went
away.

In this
dimension
until when
the stars
were ready-
1427 years
later.

The
dimensional
door was
closed.

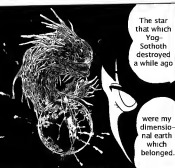

Therefore
the earthian
who survived
no longer
falls.

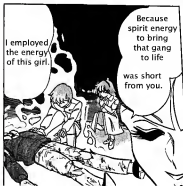

By the spirits
of the flame,
most nations
of this earth
fell and the
weapon
was not
usable.

Lamia
...

Because I live
in this world

The necessary
thing is
left only to
another one.

Damn
it.
Die you
the monster!

To evil deities,
both I and you
will look like
the same kind
if you think.

I want you
to call me
the super-
human
whom you
trans-
cended.

Do not
confuse me
with
a super-
human of
the beginner
like you.

Do
you
call
me a
vamp-
pire?

How
cheeky!

This figure
was there by
provided
too.

By this
catastrophe,
I took in
enormous
spirit energy.

Because a large quantity of human bodies roll.

In this situation my body will not be necessary anymore for you.

I need your body now.

You expected realistic way of life.

This is because your body had the ability that I make satanophany.

It is not accidental that I come for this dimension, and I did satanophany to you.

Don't be silly.

In other words, your body called me together.

Already give it up.

It should have been able to be understood in this.

I can't satano-phany.

Afterword

I have written the cthulhu mythos stories at last!

This myth is very famous, and I do not have to explain it to readers.

At the age of a junior high student, I knew this mythos.

Hayakawa's S-F Magazine carried features on board.

I read some articles and was overwhelmed in a big vision. (I had already read The Dunwich Horror, but didn't know the setting of Cthulhu Mythos).

Then whenever come across the famous proper noun such as Necronomicon and Great Old Ones, I called "did it! This is the mythos, too!"

I read few mythos works again and again frequently, and enjoyed Cosmic Horror.

The world changes, and the current fan is endowed

Some Japanese publishing companies published a lot of mythos works, and Japanese writers wrote many mythos works too. Japanese SF fans know the mythos well.

It is the really good times.

But...But the mythos were scattered and changed because the popularity spread in Japan.

A lot of description and setting contradicting it appear, many readers are confused.

Therefore I explain mythical how to handle in This book and explain interpretation of my own.

Great Old Ones is classified in four kinds in the mythos first. It is Earth, Water, Fire and Wind. Furthermore, opposition structure of the right and wrong on the basis of Elder Gods of Betelgeuse is drawn.

But H.P. Lovecraft which thought about the mythos does not think about this setting first. August Derleth of the pupil of Lovecraft completed this setting. Therefore this setting is not used for the stories of Lovecraft.

Lovecraft thought about only the theme called Cosmic Horror. "In the very large outer space, standards of the human right and wrong are meaningless. The earth and the human are a small person."

Therefore fans are opposed about "the ancestor" and "the head family"...

I put this comic in the vague situation.

As for the reason, I am because I respect the original of Lovecraft while putting a base in Cthulhu Mythos of Derleth.

I write both Elder Gods and Four Elements based on the interpretation that I watched from a human being.

Therefore it is unknown whether the judgment is right.

Because we are human being, we can judge neither.

We are afraid of it simply because it is the existence that it is very dangerous, and is strong beyond the human consciousness.

When gods force it to the fear beyond the human being, and I decide that, this is because the readers are at a loss without a story being felt by an imminent thing. How will readers think?

Introduction

<LAMIA>

I have begun to write this story without arranging constitution. Therefore, as for me, an ending was not decided until it was the last. This is an absurd comic. I did not intend to write a Cthulhu mythos story and did not intend to have it cramped for the story of the different dimension first. However, I have made such a work.

Because I used the mythos as material easily, I thought that a fan of Cthulhu would be angry, but reputation was unexpectedly good. The time when I wrote these comics. The Japanese Government was going to gloss over the consumption tax enforcement by the problem of the defense budget. Therefore I got angry with it and chose such an ending (they changed a name, and the consumption tax took effect, too after all).

This work had a big influence on my later activity in many meanings. It was a title called "Hodoin" at the stage of the notice.

Lamia E-book version Afterword

@yanoja: I wanted to tell a reader that there was a very interesting mythos. I put the element of the action and the element of the romance in a mythos first to catch the interest of the reader of the magazine. But I hesitated about a judgment.

The live broadcasting and movies of TRPG replay are high popularity.

Vol.2 is Dark Mermaid. It is my version of "The Shadow Over Innsmouth."
And one of Nagisa series!

The Challenger to Great Old Ones Vol.1
